# Pasta Extruder with Mixer **P6**

by La Monferrina

Optional MultiPasta attachment

Automatic pasta cutter

The P6 pasta extruder is fully constructed of heavy duty stainless steel and is a durable machine for any kitchen environment. A 5 kg mixing hopper mixes and extrudes 30-33 lbs per hour of fresh pasta. The P6 is a versatile machine as it can produce various short and long extruded pastas by replacing the installed die. Four standard dies are included and over 100 different shapes and sizes are available. The MultiPasta Attachment allows for the P6 to produce fresh ravioli, gnocchi, and cut pasta. A removable fan helps control the moisture of the freshly extruded pasta. An automatic cutting motor with speed control cuts short pastas to length.

## FEATURES

- › 5 kg mixing hopper (12-15 kg/hr production)
- › Automatic Cutting Motor w/ single, double blade knives
- › Four Standard Dies
- › Removable fan for drying
- › Perforated Pasta Drying Tray

## OPTIONAL ATTACHMENTS

1. **MultiPasta Attachment:** The MultiPasta allows you to make ravioli, gnocchi, and cut pastas on the P6. Optional interchangeable inserts allow for a wide variety of pasta production.
2. **Gnocchi Attachment:** The standalone Gnocchi Attachment for P6 allows you to make fresh gnocchi.
3. **Dies:** Over 100 different shapes and sizes allow you to produce various pastas from the same machine.
